Brakes

Hawk Performance's HP Plus brake pad compound is ideal for Autocross and Track Day drivers looking for a high performance race compound that can take the heat of the track and get you home safely without having to change the pads. HP Plus utilizes a unique Ferro-Carbon, high-tech friction material that was developed and manufactured for sport driving in autocross, Solo II and "track day" applications.

#43601

The Ferro-Carbon formulation offers lower wear rates and higher torque values than other competitive materials. Extremely high coefficient of friction makes HP Plus the perfect upgrade over stock for high performance streetcars used in autocross competition or that experience repetitive, heavy braking.

43601 14-18 Brake Pads - Front - HAWK HP Plus **$181.99**
43602 14-18 Brake Pads - Rear - HAWK HP Plus **$149.99**

Stingray Performance Front Brake Ducts Kit

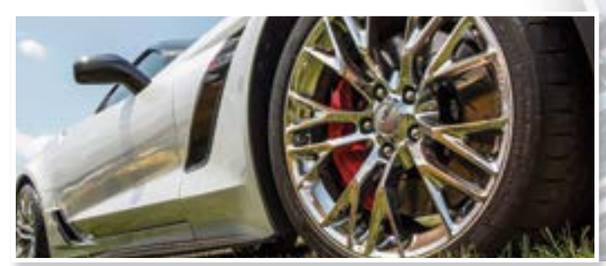
This Front Brake Ducts Cooling Kit for base Corvette models includes brake ducts and deflectors that transport air from the front grille through the wheel wells to help cool the front brakes and expel heat. This can help increase airflow by 16% to increase stopping performance by reducing temperature and brake fade.

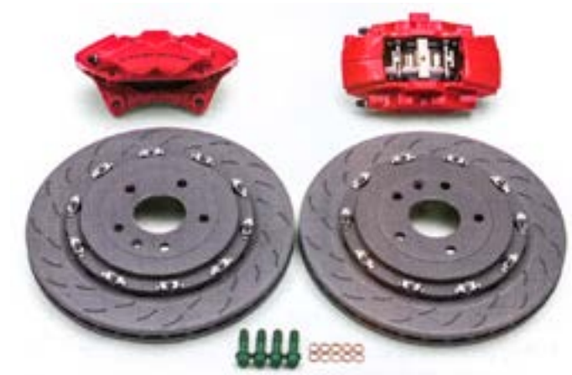
55689 14-18 Stingray Performance Front Brake Ducts Kit **$299.99**

Stingray Z51 Brake Kit

Upgrade the brakes on your 2014+ Stingray to the greater capability of the Z51 package. It features slotted rotors with diameter measuring 345mm in front and 338mm in the rear. This kit increases the brake torque up to 57% on average. Also included are high-performance pads, which provide greater resistance to brake fade at track-condition rotor temperatures over 500°C. Requires spacers. Note: The mass dampers were removed from the stock Z51 pads in order to fit inside of the base Stingray wheels. Mass dampers are used to tune the system for brake noise and therefore, this kit is not warrantied for noise performance. For off-road use only.

55690 14-18 Stingray Z51 Brake Kit - Front & Rear **$2999.99**





Z06 Brake Kits for Z51 - Piston Upgrade

The Z06 standard Brake Upgrade Kit for Z51 vehicles features two-piece iron-slotted rotors measuring 370 mm x 34 mm in the front and 365 mm x 26 mm in the rear, with aluminum mono-block 6-piston and 4-piston fixed calipers, respectively. The front calipers feature vented pistons to help improve pad and brake fluid cooling, including pads 39% larger than those found on the stock Z51 vehicle. These calipers offer differentiated piston diameters of 30, 34 and 38 mm (leading to trailing) for even pad pressure for improved pad wear. Note: These brakes will not fit under stock base or Z51 wheels. Requires a minimum 4 mm wheel clearance between the outboard face of the caliper and the inner wheel spoke. This application is for off-road use only because the stock Z51 wheels do not fit over the Z06 brakes. Any failures occuring as a result of the non-production wheels selected by the customer would not be covered under the limited warranty of the brake kits.

55692 15-18 Z06 Brake Kits for Z51 - Piston Upgrade - Front . **$2999.99**
55693 15-18 Z06 Brake Kits for Z51 - Piston Upgrade - Rear .. **$2499.99**
